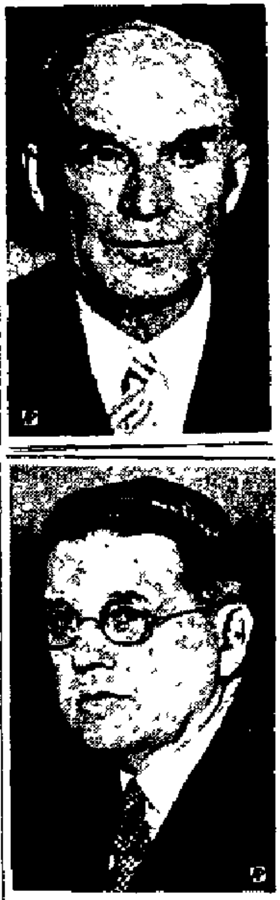
OHIO LEADERS



Above are pictured two Ohioans prominent in the national Republican convention program as it opened today in Chicago. United States Senator Simeon D Fess (top photo) chairman of the national Republican committee, called the convention to order. Postmaster General Walter F Brown (below) was present as one of President Hoover's chief representatives and was scheduled for election as national committeeman from Ohio to succeed Maurice Maschke.

GUILTY VERDICT IS RETURNED BY JURY

Ohioan Faces Manslaughter Sentence in Death of 3-Year-Old Son.

By The Associated Press
JEFFERSON O June 14—Howard I Morris 37 of Geneva who left his three year-old son to die of exposure while lying in a ditch was convicted of manslaughter early today. The jury deliberated 10 hours and 25 minutes.

Morris confessed that as he was driving back to his home last May 25 while intoxicated his son Howard Jr was jolted from the car. The father returned and picked the child up but thought him already dead and left him by the roadside. The boy's body was found the next day and the coroner returned a verdict of death by exposure.

In his trial Morris repudiated his confession and contended he remembered nothing after he started drinking.

The penalty is one to 20 years but sentence will not be pronounced until the defense has decided whether to appeal.

Workers Take Field in Community Fund Drive

Early Bird Breakfast at Y. M. C. A. Launches Campaign for $22,428 To Carry Agencies for Next Six Months; First Report Wednesday.

Last minute instructions and expressions of encouragement and confidence were given by Community Fund leaders at an early bird breakfast in the Y M C A this morning that launched the Fund's drive for $22,428.

More than 50 men turned out for the breakfast of bacon and eggs served at 7 30 a m that officially set the drive under way.

The first report on the progress of the drive will be made Wednesday at noon in a luncheon at the Y M C A. Other report luncheons will be held Thursday and Friday noons.

"This thing can be done" Supt George A Bowman campaign chairman declared this morning after reviewing instructions and answering last minute questions. "More than ever before we need the activities of the Fund's agencies. See every prospect on your list give every person an opportunity to subscribe."

To Report Wednesday

He predicted that the campaign would be well on its way toward the goal by the report luncheon Wednesday. Reports will be given at that time by Majors C F Bronson and S G Rosenberg head of the general division Major Charles H Isaly of the special gifts division Major Homer Waddell of the retail merchants employes division Major Don A Howard of the industrial division Major Morgan E Burke of the foreign corporations division.

Workers in the Community Fund drive were given a comprehensive picture of fund agency activities in a short play presented last night during an instruction meeting for drive leaders and workers in the Y M C A.

Dramatization of the agency activities followed instructions to workers by Supt George A Bowman campaign chairman, and the distribution of approximately 1,300 prospect cards among the workers.

The agencies chose a mythical household "Mr and Mrs Edward White" and their family of eight children as a typical family needing relief and brought all agencies to play in giving the family various forms of aid.

Goes to Community Fund

The first scene introduced Mr White in the Community Fund office. He next went to the Family Welfare society to make application for assistance. Here a case worker made an investigation and determined what best could be done to assist the family.

The third scene showed the case worker interviewing the family. The Red Cross nurse gave care and instruction in the home. In subsequent scenes the case worker planned a constructive program for the family in which the Family Welfare society commissary gave clothing the Salvation Army helped plan for the leisure time of the

OHIOANS DEFER LIQUOR STAND

Move To Gain Expression on Dry Issue at Republican Convention Fails

OHIO OFFICERS CHOSEN

Postmaster General Brown Succeeds Maschke as National Committeeman.

BY R. P. CRONIN JR.
Ohio Associated Press Bureau Chief

CHICAGO June 14—An attempt to gain an expression on the question of prohibition resubmission from the Ohio Republican national convention delegation caucus failed today when James R Garfield chairman-designate of the resolutions committee moved to postpone consideration.

His motion carried with only half a dozen nayes sounding in the meeting hall.

Wilson W Wood of Piqua delegate from the fourth district surprised the session by introducing a resubmission resolution. He asked the delegation to go on record favoring resubmission of the eighteenth amendment to the various state conventions and that delegates to such conventions be named at a special rather than regular election.

He found a ready seconder in State Senator Joseph N Ackerman of Cleveland but immediately after Ackerman made a fiery speech against the amendment Garfield interposed and action was postponed. Garfield said his purpose in moving for postponement was not to throttle expression from the delegation but rather to give the delegates time in which to study the question thoroughly.

Will Stay "Regular"

While some of the Ohio delegates are dry and others favor repeal, it is known they are "regular" above all else and will support any program President Hoover might advance. In the absence of a definite Hoover policy on prohibition the Buckeyes will follow their leaders and vote for resubmission.

The caucus named the following

HOUSE VOTE ON BONUS DUE TODAY

May Pass Senate, but Enactment Over Hoover Veto Seen as Impossible.

By The Associated Press
WASHINGTON June 14—The outcome already a certainty the house started work early today to record forthwith its approval of the veterans army demand for immediate payment of the soldier bonus.

Made increasingly miserable by persisting rains many of the 20,000 World war soldiers who swarmed in ramshackle camps on Washington's outskirts flocked again to the galleries and the corridors of the capitol to wait through the four hours of debate and succeeding action on amendments which were to precede the final roll call.

It was the intention of house leaders to continue the session until that final vote was reached in the evening. The expectation was that passage would be by approximately the majority that yesterday made possible consideration of the bill, 226 to 175.

Final Defeat Foreseen

In this vote incidentally was seen certainty of final defeat for the bonus legislation. Even though the bill should pass, it will go to the senate claims of 85 votes against White House for a promised Hoover veto. If 226 is the limit of

Punches Landed in Dickinson's Keynote Speech

By The Associated Press
CHICAGO June 14—Here are some striking sentences from Senator L J Dickinson's keynote speech to the Republican national convention.

* * *

Herbert Hoover was at grips with the forces of depression before the country as a whole had had time to realize the menace it faced.

* * *

With the cooperation of the people the President was able to resist rising clamors for a federal dole.

* * *

The value of the dollar is unimpaired and the future security of the United States has been preserved.

* * *

Restoration of the agricultural industry has been and still is a primary consideration of the Republican party.

* * *

There can be no evidence of the solicitude of the Republican party for the farmer more convincing than the sums of money placed at the disposal of the agricultural industry during the past three years.

* * *

The Republican tariff has preserved the American market for the American producer.

* * *

Gangdom racketeering and thuggery should be stamped out of our nation.

* * *

Our victories have been won on constructive issues.

* * *

Today partisanship is sublimated before patriotism.

* * *

And yet to my mind there is no greater patriotism than the employment of every effort toward the restoration of normal conditions.

KEYNOTER IN ACTION

Here are three typical oratorical poses of Senator L. J. Dickinson of Iowa keynoter of the Republican National convention, whose silver tongued rhetoric raised the curtain upon the big pow wow of the Grand Old Party today. The pictures were made at a pre-convention meeting of Republican chieftains shortly after Senator Dickinson's arrival in Chicago.

PRESIDENT'S HEALTH IS UNUSUALLY GOOD

By The Associated Press
WASHINGTON, June 14—Any one with the idea that the extraordinary burden of the presidency is damaging Herbert Hoover's health apparently is all wrong.

Dr Joel T Boone, the White House physician, is so enthusiastic about his ward's condition that he told a medical gathering last night the President was a "physical rarity," enjoying excellent health in spite of "bearing a greater strain than ever was the portion of any other President."

DENTIST TELLS NEW STORY OF SHOOTING

Cleveland Man Says He Wounded Wife During Quarrel Over Card Game.

By The Associated Press
CLEVELAND O June 14 — A new version of the serious wounding of himself and his wife was told to police today by Dr John O Steer, Cleveland dentist.

Mrs Steer found in their home yesterday with a bullet wound in her head remained in a critical condition. Her husband suffering a scalp wound first told police they had been attacked by a burglar.

After questioning however police said Dr Steer told them he shot his wife accidentally while beating her on the head with a revolver. He said she struck him first with the gun while he was sleeping.

The dentist police said told them he and his wife quarreled bitterly after playing cards. "They were playing rummy" he said "and differed over their systems."

He said she got the gun from the kitchen after he retired and started beating him. The shooting followed. He finally realized how serious it was and invented the robbery story.

Mrs Steer is not expected to live. The couple have two children John Jr 11 and Lucille, 8 both of whom were asleep at the time of the shooting.

KEYNOTE LAUDS NATION'S CHIEF AS SAFE GUIDE

Reelection of Hoover as "Dependable Means Toward Restoration of Normal Conditions" Urged by Dickinson in Starting G. O. P. Convention.

MAKES NO MENTION OF PROHIBITION ISSUE

Democratic Policies Assailed as Impractical and Destructive; Presidents Battle Against Depression Reviewed as Record of "Brilliant Service."

By The Associated Press
CHICAGO, June 14—In a keynote speech entirely silent on the thorny prohibition issue, Senator L J Dickinson of Iowa called today for the reelection of Herbert Hoover as a "dependable means" toward the restoration of "normal conditions."

His address at the opening of the Republican national convention called moves by the President to meet the depression "brilliant." The Democrats were severely rapped. The farm board was defended and the Republican party was called the "undeviating" friend of the farmer.

The Smoot Hawley tariff was described as a bulwark against cheap foreign products and the national defense and foreign policy of the administration were praised.

The forceful white haired Iowa Republican told the delegates assembled in the huge flag decorated stadium that there could be no greater patriotism than the employment of every effort for the restoration of normalcy.

Senator Dickinson said Mr Hoover was at grips with the depression before the country as a whole realized what it faced.

"His first act prevented a financial panic" he said, adding that the Chief Executive invoked federal reserve board powers to cushion the effects of the stock market debacle.

Conferences with industrial and labor leaders Senator Dickinson said prevented the bloody disturbances which have attended other economic crises.

Then were reviewed steps taken "against depression on a hundred fronts." Among them were listed the formation of the national Credit association creation of the Reconstruction Finance corporation and a "determination that a balanced budget was the first essential to economic recovery."

Mention of the tax bill was a prelude to castigation of the Democrats.

"For two long years they hampered the President at every turn" the Iowa senator said. "Through a highly subsidized press bureau Democratic leaders sought to distort his every word to impugn his every motive to frustrate his every move." Their orders were to smear Hoover.

Democrats in the house Dickinson said followed Mr Hoover for a time but fell because they had no program of their own but finally they broke away. The Republican keynoter said the result was the wrecking of the economy bill and a flouting of the party's own leader.

The relief proposal by Speaker Garner of the house which already had been denounced by the chief executive as a pork barrel measure was assailed by Dickinson. He charged also that measures sponsored by the Democrats threatened to debase the dollar. It raised he said the spirit of 1896.

The organizing of farmers into cooperatives for the marketing of their products was termed the outstanding accomplishment of the farm board "which has been the butt of much criticism the greater part of which is unjust."

The board was also given credit for bolstering the price of wheat and cotton through stabilization efforts. The profit to the farmer as a result was estimated at between $2,000,000,000 and $3,000,000,000.

Credit for substantial betterment through the Smoot Hawley tariff by Dickinson was accompanied by the contention that the Democrats were badly divided on the issue, despite their criticism of the Republican stand.

He said in the senate alone there were 1,010 votes for increases or against decreases by Democrats during consideration of the last tariff measure for increases.

There has been, he continued, more recent illustrations of the "avidity with which the Democrats pursue high tariff rates."

"They generously supported duties on copper, coal, oil and lumber," Dickinson said, referring to import levies which were placed in the recently completed tax measure.

REPEAL FORCE DEFEAT SEEN

Tentative Plank for Resubmission Drafted; Leaders Predict Success.

BY FRANCIS M STEPHENSON
Associated Press Staff Writer
CHICAGO June 14—Administration leaders intent upon defeating the forces of repeal by drafting an acceptable plank calling for resubmission of the prohibition question today predicted success was just ahead after consulting the White House and spokesmen for the drys.

During the morning they communicated by telephone with President Hoover's aide in Washington and called in Daniel A. Poling, head of the Allied Forces for Enforcement and other prohibition leaders to inspect the tentative resubmission plank already drawn up.

Subsequent events indicated revision was in progress.

Secretaries Mills and Hyde of the cabinet pored over the issue with James R Garfield the President's choice to head the resolutions committee. A final agreement and approval by the President was expected before the committee goes to work late today.

Reaching the stadium from the prohibition conference room long after the convention had opened Secretary Mills said wearily, "I don't think a real solution will be found until the committee meets."

Nevertheless the departure of Mills together with Secretary Stimson from the prohibition parleys indicated a final draft had been found subject to study by the President during the early afternoon.

PENNSY DELEGATES SEEK MODIFICATION

Resubmission Plan Also Advocated; G. O. P. To Get Resolution.

By The Associated Press
CHICAGO June 14—Pennsylvania delegates to the Republican convention voted 49 to 11 today for resubmission of the prohibition question to state conventions and immediate modification of the Volstead act.

At the same time the delegation recommended that congress pass a law to regulate the sale of liquor if the Eighteenth amendment should be repealed.

The resolution adopted by the delegation will be presented late today to the resolutions committee of the convention.

The resubmission plan was opposed by a group which advocated repeal.

I allowed my imagination to run riot upon the uses to which so novel an instrument might be put. This plan occurred to me bit by bit and I spent the better part of six months finding a proper location for my guest house At last I discovered this island which is nothing short of ideal for the purpose I purchased a portable house with all the equipment gasoline lighting plant electric refrigerator and the like and brought it here on a scow where my men erected it Very simple job it was too

When the house has served its purpose I shall disappear My sanctuary awaits me In it I have a grand piano a modern radio and thousands of books enough to last me until I die There comfortable surrounded with the things I love I shall meditate upon these days of roguery browse contentedly through my library and perhaps write a book or two

He smiled at her a wide mouthed generous smile which contrasted strangely with his words and his actions She found herself amazed beyond belief at the strange philosophy of this remarkable man She wondered what he had suffered to give him this warped outlook upon life but her intuition warned her that it would not be wise to probe too deeply

Ah Mr Lucci he said looking over her shoulder your presence this morning speaks wonders for your stamina You'll pardon me I'm sure but that diagonal bandage gives your face an uncommonly raffish look How are the other inmates?

One shot his face crisscrossed with bandages and surgeon's plaster grinned painfully

Crazy as ever Limpy he replied thickly Malloy's still in bed Just saw the steward taking him a highball Hamilton is back at his blamed solitaire Martin's sitting in a corner saying nothing while Williams tells him what's the difference between May and September wheat

How delightful commented the cripple

Lucci looked at him in wonder This was a strange bird A little potty maybe but a racketeer such as gangland had never known before and would never know again

Listen Limpy he said abruptly ignoring Nancy's presence I don't begrudge you this game one damn bit You turned a nice deal and I'll lay my dough on the line without squawking What I want to know is will you play with me or against me when this is over?

I take it that you have a proposition? Ashwood's voice held only the vaguest shade of interest

You said it Listen I control every money making racket west of the Alleghanies My muscle men are in on the graft in Chicago Detroit Cleveland Cincinnati St. Louis and Kansas City In each of those cities my men act as the secretaries of my outfits and I get the dues see? No dues no protection No protection no business see? I got organizers working right now in the East and in another six months there won't be a cleaner and dyer a garagemen or a milk dealer in the United States who ain't kicking in see? And that ain't half

"There are a few guys who are backing me he continued earnestly but my gorillas will take care of them.

"I never have been able to make out just what your racket is. I know that damn funny things happen every once in a while and when they do I hear talk about Limpy Ashwood Are you the bird whose mob is bringing in all the diamonds from Antwerp? He glared at the cripple challengingly

While a lawyer might object to that as a leading question" smiled Ashwood it is flattering coming from you I have been interested in the wholesale importation of diamonds on a fairly large scale

How'd you get them by the customs demanded the other incredulously

At a prearranged spot off Nantucket lightship my man on the steamer drops them overboard in a metal canister One hour later the canister erupts a great quantity of chemical smoke My amphibian which at that moment is cruising in the vicinity spots the smoke and picks up the container Quite simple eh?

The bewildered gangster stared at him in undisguised admiration

How many men you got in your mob? he inquired

Forty four replied the cripple carelessly scattered here and there around the world

That ain't many stated the other disparagingly I got more than five hundred He stopped and appeared to ponder Then as a sudden thought struck him Did you pull over the silk express robbery three months ago?

My men did Ashwood admitted I did little more than to fly the plane It happened that my regular pilot was ill

Fly the plane? The gangster seemed puzzled Then his face cleared in sudden understanding Sure That's how you made your getaway No wonder the bulls couldn't pick up your tracks Now listen Limpy how about the two of us hooking up? We can make twenty millions apiece in the next year and that ain't boloney either Twenty millions easy

The frail figure in the deck chair stirred uneasily His eyes had become weary and old

I'm afraid not Lucci I don't want twenty millions I have about all I want now And so have my men I've shared with them and when we are through our efforts here we're going to break up as an organized unit For my part I'm going to retire

He looked far into the northern sky focussing his eyes intently

Of course he added there's the ever present element of uncertainty which makes this a stimulating profession Plans are subject to change without notice For instance if I'm not mistaken the crew of that airplane up there may have something to say about our immediate future"

Nancy and Lucci followed the line of his pointing finger saw a tiny dot in the morning sky As they watched it the faint pulsing drone of its motor came to their ears The guard on the beach hastily dismounted his machine gun and carried it beneath the sheltering leaves of a palm Another guard appeared who began to do things to the breech of the gun Three men dashed out of the service door of the house and raced down to the hangar Presently the entire island shook to the thundering noise of the amphibian's engine A man appeared at the hangar door dressed in coveralls and helmet He stood there gazing alertly at the porch as if awaiting some sign from the white haired cripple

"Heart of a Wife"

BY ADELE GARRISON

Madge Examines the Note Signed With Marion's Name but Brands It a Forgery

"ALL READY Dr Barnes said looking up from his camera If you'll just hold the note up in front of that dark panel so that the top comes just below that hook I take it you do not wish to fasten it to the panel by the corners

Can't do that It would smudge the fingerprints if there are any my father replied Oh! I see It turns over when held by one corner Suppose my daughter stands on the other side and holds the other upper corner"

I fancy that will do nicely Dr Barnes answered and with pounding pulses I walked up to the panel and carefully followed my father's injunction to touch the note only at the extreme right hand corner

Dr Barnes took several exposures of both sides of the note and when he had closed his camera we all went back to the living room my father still holding the note by its left hand corner

May I have a pasteboard box deep enough to hold this when fastened to a string stretched from corner to corner of the box" he asked There seem to be finger marks on this, but I cannot be sure

I will get you such a box at once Dr Barnes said and spoke into a house phone at his elbow

Ask Mrs Barnes to come here at once please he said When his wife appeared he gave her the directions for the box then hurried to his dark room

Get pencil and paper darling my father said to me when they had gone I want to put down my impressions of this paper while they are fresh

I obediently took down several seemingly unimportant details concerning the appearance and texture of the paper And then my father held the note up before my eyes

You may read it now he said quietly

But my eyes had no sooner fallen upon the closely written sheet than I uttered a little cry

Why It's Marion's handwriting I said and —glancing hurriedly down to the bottom of the page— Carolyn has signed it too and written a few words above her signature But the most of it is Marion's

Yes I know he said I saw that although I have had no chance to read it On the other hand the scoundrels who took them may have been able to obtain specimens of their handwriting and then forged the letter But be my eyes darling Read it first to yourself and then softly to me

It was a familiar request to me One of my father's peculiarities is his ability to acquire a mental image of an object through his ears rather than his eyes Often have I read important documents to him—papers at which he refused to look until after he had listened to them

He held the note up to me at first with the superscription side outward The paper had been folded into a rough but effective envelope and I had been much impressed by the care with which my father had unwrapped it.

The superscription was simple

Doctor Barnes
Whitney Hall
Sackettsville, New Jersey
Important. Deliver at once

"That superscription looks like those on Marion's letters" I said breathlessly "She always addresses them in that block fashion."

"I am reasonably sure that she wrote both address and enclosure" he said "Have you finished with this side."

"Oh, yes." I found it hard to articulate, so anxious was I to read the other side of the note, of which I had glimpsed but a few words.

"Then look at this side"

He turned the letter around and I could not repress a little shiver as I imagined the terrified stress under which the girl so dear to us all must have penned the words before me

Yet there was no hint of shakiness in the chirography It might have been any ordinary letter of hers only that it was better handwriting as if she had taken painstaking care with it But as I read it through one characteristic struck me forcibly She had misspelled a number of words I was sure she knew although she is not a champion speller and she had used two or three fairly English constructions which I was sure were not in her ordinary usage

"I do not believe Marion wrote this" I said looking up "I am sure it is a forgery"

A DAY of perplexity and anxiety in business employment and financial matters is foretold from the unfavorable places of important planets It would be wise to be particularly careful not to run counter to wishes of superiors or those in authority and to postpone approaching them for favors or assistance Be shrewd and alert when signing all papers or writings and keep a firm curb upon the speech However private affairs hold compensation and are gratifying

Those whose birthday it is may be prepared for an anxious and troublesome year in business employment and financially but this unhappy condition may be negatived by personal popularity and favoritism A child born on this day may be personally active popular and gracious

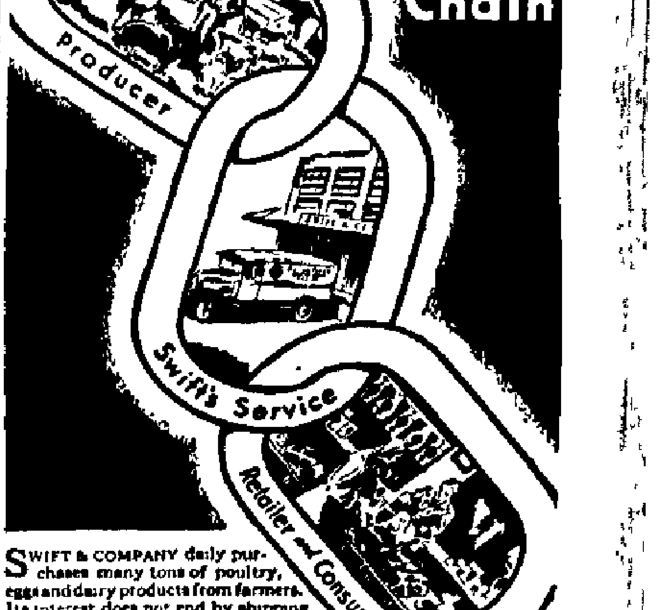
Vital Links



SWIFT & COMPANY daily purchases many tons of poultry, eggs and dairy products from farmers. Its interest does not end by shipping this produce to a few big city warehouses, there to await the development *of demand.*

Demand seldom stands on the *rooftop* and yells *for* Supply to come into the house.

That's why, every morning thousands of Swift & Company Branch House and Car Route salesmen start out to sell poultry, butter, eggs and meat

Perhaps these salesmen do not create demand but they hunt for it with fine tooth combs: they stir it, they dig it up When they find Demand, they turn it *over to farm* producers who sell to Swift & Company

It is to the salesmen's interest to discover new outlets, to expand the old ones, to let the organization know which markets are best. Their incomes, their advancement, depend on how well they sell.

Salesmen are vital links in a human chain that reaches back to the produce plant manager and his helpers Every man strives to better himself by selling more and by cutting the cost of handling.

The Swift & Company national market was made by digging up demand wherever it exists in the United States by advertising brands of high quality Swift's Meats Swift's Premium Milk Fed Chicken Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products Local gluts and shortages are known and Swift's products are then distributed to the best advantage. By having the same railroad cars equipped to transport produce or meat, by having the same salesmen sell produce and meat on the same order, important economies have been achieved Costs are spread more thinly for livestock men and produce men alike.

Unflagging interest that begins with a purchase from a farmer and continues until his produce is in a retail store—and in demand by a consumer—that is Swift & Company service. The charges for it are low. Profits over a period of years, have averaged less than a half cent a pound of all products sold.

JUNIOR LOOP TURNS TO PITCHING BATTLE BETWEEN SOUTHPAWS

Grove and Gomez in Spirited Race, Cleveland Beaten by Yanks.

By The Associated Press

Deprived for the time being of anything resembling a close pennant race, American League partisans are deriving most of their mid-season excitement from the hot duel between Vernon Gomez and Robert Moses Grove for pitching honors.

The two southpaws are setting a pace that promises soon to distance all rivals.

Lefty Grove

Defeating Cleveland yesterday, 8 to 7, Gomez stretched his record to 12 victories against one defeat.

Grove, beating Detroit 8 to 1 on four scattered hits, observed his eleventh straight triumph and set his mark at 12 wins and three losses.

Gomez has not tasted defeat since May 2. Grove suffered his last reverse April 30.

Grove breezed in with No. 12 holding Detroit helpless but Gomez had a terrible time subduing the Indians.

The home run race between Babe Ruth of the Yanks and Jimmy Foxx of the A's remained at a standstill as each belted one out of the park. Foxx hit No. 23 off Tom Bridges of Detroit. The babe nicked Jack Russell for No. 21.

In the day's only other contest the Chicago White Sox jumped on Ed Durham and Wiley Moore to beat the forlorn Boston Red Sox 7 to 6.

The entire National league program was rained out.

ALL-STARS SQUARE GREEN CAMP SERIES

The Marion All-Stars softball team evened the count with Green Camp yesterday by taking a 12-2 victory from the county nine. Green Camp recently defeated the All-Stars. Francis Robbins pitched a three-hit game for the winners.

The All-Stars would like to book games with teams in this vicinity.

Batteries and score by innings:

Green Camp	000 110 0	2	3	3
All Stars	142 131 x—12	13	1	

Green Camp: F. Furniss and Lovell. All Stars: F. Robbins and P. Robbins.

George Lott, New Clay Court Champ, in Feature Match Today

By The Associated Press

CINCINNATI, June 14—Invading racquet aces went after the scalps of Cincinnati players again in the tri-state tennis tournament today after yesterday's victories in which they eliminated nine in the men's singles without suffering a loss.

George Lott, newly crowned national clay court singles champion, was to meet Paul Hynes of Cincinnati in one of today's feature tilts.

Results in the men's singles yesterday were: Fritz Mercur of Bethlehem, Pa., defeated Edward Swick 6-1, 7-5 and Brian Henley 6-1, 6-0; J. Gilbert Hall of East Orange, N. J., won by default from Clark C. Nowland of Covington, Ky., and defeated T. O. Dunlap 6-1, 6-1; Edward McKnight of New York trimmed Bert Berne 6-0, 6-1.

In the junior singles Clifford Hunt of Cincinnati defeated Harry Fogelman of Portsmouth, O., 6-2, 3-6, 8-6 and Bob Woerdeman of Cincinnati won from Lattia McCray of Dayton, O., 6-4, 7-5.

METHODISTS TAMED BY ART AMICK, 4-0

Tight Pitching Duels Feature Monday Games, Christian No. 1, Reformed, Forest Lawn Win

BY BOB KIRKPATRICK

Sports Editor The Star

When Art Amick set the Epworth Seniors down with one pair of hits yesterday afternoon while his team mates were banging Bryant Corwin for seven bingles and four runs the Christian Seniors bounced right back into first place in the No. 2 Sunday school league. The Methodists' two hits off Amick's slants were valueless as they failed to produce a single run. First Reformed kept itself in the running by edging out a 1-0 victory over the St. Paul Lutherans. A home run in the sixth inning paved the way for a 1-0 victory of Christian No. 1 over Wesley M. E. and Forest Lawn collected three runs to beat the United Brethren 3-2.

Art Amick had the edge on Corwin all the way in the battle for the league lead. Corwin equalled him in the matter of strikeouts, each whiffing four batters but Corwin gave up seven hits while Amick permitted only two Epworth batters to help the Epworth cause. The victory gives the Christians only the percentage lead. Both teams have lost one game but the Christians have played two more and have five victories to their credit to three for the Methodists.

A Tight Duel

Dale Schwaderer personally conducted the First Reformed club to a 1-0 victory over St. Paul Lutheran in a nine inning conflict. Schwaderer twirled a neat exhibition against the Lutherans striking out 12 men and allowing four hits. His pitching however had little on the brand dished up by Don Lindsey of St. Paul. Don also gave up but four hits and struck out seven men. One run filtered across the plate in the ninth frame to beat Lindsey.

Roscoe Rank and Tony Lashey put on the prize pitching duel of the afternoon as Central Christian [illegible] Wesley M. E. battled [illegible] way through a seven inning game in which the [illegible] by a 1-0 score. [illegible] the Christian [illegible] and [illegible] that cost him the game [illegible] for Hal of Geissler [illegible] drove [illegible] run of the game. With [illegible] pitching such tight ball the Methodists were not able to dent the plate with a single counter. [illegible] was the only [illegible] completely stopped by Lashey. He secured [illegible] three hits.

Forest Lawn Wins

Forest Lawn was forced to score a run in the last half of the seventh inning to win in a 3-2 victory over the United Brethren nine and keep in the running for the league title. Butt Kellogg made his first successful start of the year for the East side club giving the Brethren four hits. Kellogg gave up one hit and a run in the first frame and then set the Brethren down scoreless until the seventh when another counter was rushed across to deadlock the count. His mates broke up the game by scoring the winning run in the last half of the seventh with one man out.

BOSTON SENDS WEBB TO DETROIT TIGERS

Dale Alexander, Roy Johnson Go to Red Sox in Player Swap.

By The Associated Press

BOSTON, June 14—Engineering a trade in his efforts to mend the holes in his Red Sox nine, President Bob Quinn has sent Earl Webb, hard hitting outfielder, to Detroit in exchange for Dale Alexander, big first baseman and outfielder Roy Johnson.

No cash was involved in the deal—the third important Red Sox trade in a week and the fourth in three weeks.

President Quinn said last night he believed it would give his last place Red Sox additional hitting strength in the infield.

Always a great hitter, Webb's fielding kept him out of the majors for several years. Last year, however, he found himself fielding sensationally and batting .333.

Alexander hung up a batting mark of .325 last year while his fielding just about got him by.

Johnson was just the reverse. A classy fielder and very fast, he has shown potential hitting strength. He batted .??? in 1931.

CALEDONIA BEATEN BY DELAWARE, 6-2

Delaware climbed on Burgraff of Delaware for 10 hits Sunday to earn a 6-2 decision over Caledonia in a Heart of Ohio league game. Nebert pitched the game for Delaware allowing five hits and striking out 10 batters. Burgraff struck out 10.

SHARKEY SURPRISED BY SPARRING MATE

By The Associated Press

ORANGEBURG, N. Y., June 14—It takes Joe Sekyra, Dayton, O., trial horse to wake up Jack Sharkey these days as the Boston heavyweight prepares for his 15-round title match with Max Schmeling next Tuesday night.

Sharkey loafed through a two round session with Lou Flowers and a one round set-to with Charley Anderson in his workout indoors here yesterday and threatened to do the same thing with Sekyra.

But the Ohioan jabbed the challenger with a left half dozen times and Sharkey woke up with a start. He tore in quickly and boxed with his usual speed and skill throughout the rest of the two-round bout.

STEPENFETCHIT TO COMPETE IN DERBY

By The Associated Press

CHICAGO, June 14—Stepenfetchit, Mrs. John Hay Whitney's candidate for the $50,000 added American derby at Washington park Saturday, was due to arrive at the track today.

Stepenfetchit was shipped from New York yesterday.

W. M. Jeffords' Boatswain, victor in the Withers, will arrive tomorrow to fulfill his engagement at the peak event of the Washington park meeting.

MARIETTA GOLFER COPS OPEN CROWN

By The Associated Press

COLUMBUS, O., June 14—Julian Blanton, Marietta professional, is the new central Ohio district open golf champion.

He defeated Melvin Carpenter 38 to 40 in a nine-hole playoff after they had tied at 142 in the regulation holes of the annual tournament at the Wyandot club here yesterday.

Blanton made his score with two 71's and Carpenter with a 72 and a 70. Leonard Schmutte of Lima was cheated of a 142 when his tee shot on the 16th went out of bounds. This left him a stroke behind at 143.

John Florio of Columbus, former state amateur champion, had a 146. Dutch Reed of Chillicothe 165, Wilson Crain of Akron 152 and Mike Heaney of Athens 156.

SCHMELING WILL USE NEW FIGHTING STYLE AGAINST BOSTON GOB

Corbett Sees Maxie as Vastly Improved Champ in Fine Condition.

By The Associated Press

KINGSTON, N. Y., June 14—A new Max Schmeling in fighting style and [illegible] will be unveiled for Jack Sharkey in the Madison Square Garden a week from tonight.

"If Sharkey thinks he's going to meet the same [illegible] Schmeling he watched [illegible] for four rounds two years ago, before fouling him, he's crazy," muttered Jim Corbett, a former champion. "Sharkey will have to get the fellow early if he's going to do it at all."

Most striking is the complete change in the German's ring style, his new knowledge of defense and an expanded punching repertoire.

No longer does der Maxie ape the weaving, bobbing style of Jack Dempsey. Instead he stands straight up, his left hand extended, jabbing in orthodox fashion, slipping punches with his head, countering hard and short with a [illegible] right to the ribs and chin.

Schmeling believes he has improved his defense and acquired at the same time a right hand uppercut that had been crashing solidly into the anatomies of his various sparring partners.

Today the German is ready for the fight that will mean vindication of his hollow victory by which he gained the title on a foul, or will drop him back to the foot of the title ladder.

He weighs 190 pounds. He is brown of skin and placid of temperament. His muscles ripple and flow as he goes through his lengthy workouts without drawing a single heavy breath and he has all the poise and calm of any champion in history.

Schmeling had little idea how to block a left hook except with his chin the night Sharkey whaled him about only to lose on a foul.

But today the German calmly picks off left jabs with his right glove and drops over short thudding counters to the chin. His elbows catch most of the left hooks.

SHORT SHIP RACING OPENS IN MANSFIELD

MANSFIELD, O., June 14—Miss Kitty, bay mare driven by Fleming, provided the fastest time last night in the opening program of the shortship races here, stepping the distance in 2:06¼ and 2:08 to win the 12 class pace in straight heats.

Katy took the 22-18 trot claiming race and Hughes' M. Napoleon won the 20 class pace.

Bill Dickey, Yankees—His two home runs and single accounted for four runs against Indians.

MILLERS WALLOPED BY SECOND PLACERS

By The Associated Press

CHICAGO, June 14—Ernie Wingerd, the odd handy man of Indianapolis club of the American Association, has joined the ranks of American Association pitchers who just missed hurling a no-hit game.

His left arm taunted all batsmen until Sicking's single in the ninth spoiled his clean slate. His team mates meantime banged pitchers Day and Brillheart for 17 safeties and crushed the league leading Millers under a deluge of 13 runs.

The Indians back into second place by a matter of percentage points as Columbus lost to Kansas City.

The battle at Columbus was a wild one with the Blues finally winning 19 to 10.

Bill Sweeney's bat was the big factor in a 13 to 4 victory for Toledo over Milwaukee. Sweeney frisked Stiles and Kessenich for three doubles and a triple, scored two runs and hammered in five more.

CUBS RUMORED IN TRADE WITH BRAVES

By The Associated Press

CHICAGO, June 14—The old rumor that the Chicago Cubs are about to make a deal for an outfielder had popped up again today.

The latest candidate was Wally Berger of the Boston Braves, a strong hitter last season but not so strong this year. The reports said a pitcher—not named—would go to the Braves for Berger.

BIG BOARD IN SLOW ADVANCE

[illegible] Stock Markets [illegible] Forward After [illegible] Day Drop

[illegible] Associated Press [illegible] 14—Securities [illegible] forward to- [illegible] a period of [illegible] as in the [illegible] markets pre- [illegible] of the bonus [illegible] and of an [illegible] of congress as [illegible] for repeal plank [illegible] platform were [illegible] circles as in [illegible] was hesitant [illegible] but started [illegible] advance in [illegible] products and a [illegible] Products re-ining American Commercial Alcohol U S Industrial Alcohol Allied Chemical, Dupont and Air Reduction were other firm spots in the chemical group, up 1 to 2 points. American Telephone and Union Pacific also pushed up 2 points while Eastman gained about 2. Gains of a point or more were numerous appearing in U S Steel American Car American Sugar National Biscuit, American Tobacco B Ligget & Myers B Woolworth Westinghouse North American Standard of N J, and Consolidated Gas. Auburn fluctuated widely but failed to make consistent progress in either direction.

Strength of U S government issues in the bond market was apparently a factor in the firm tone of stocks. These issues were presumably helped by the predicted defeat of the soldier bonus measure and the substitution of the provisions of the Wagner relief bill for the Garner measure by the senate banking committee since the Wagner measure calls for less government financing. Wall street however seemed more interested in the adjournment of congress than anything else at the moment bringing to an end legislative uncertainty.

Strength of the alcohol stocks was the most pronounced in some time although the effect of the repeal agitation was apparently almost wholly psychological for security analysis point out that at best modification of the prohibition laws would take some time and that this juncture its all but impossible to tell how individual securities might be affected. The regular stock generally turned firm coincident with announcement by leading refiners of an increase in the price of their product to 3 60 cents a pound from 3 70.

WHEAT PRICE DROPS AGAIN

Acute Weakness at Liverpool Causes General Selling in United States.

By The Associated Press

CHICAGO June 14—In a wave of general selling wheat today for the first time this season fell below 49 cents a bushel for July contracts representing the new 1932 domestic crop.

July wheat in Liverpool smashed down to but little above what could be obtained here, and this development coming ahead of dealings in Chicago had much to do with overturning values in United States and Canadian markets. Export demand for wheat from North America shriveled to almost zero.

Acute weakness of the Liverpool wheat market overshadowed other features of the grain trade and was attributed largely to increased uncertainty over the general economic and political outlook causing severe shrinkage of immediate buying power.

The approach of the British trade conference at Ottawa Canada and the reparations conference at Ottawa Canada and the international conference at Lausanne Switzerland as well as the United States presidential nominating assemblages received special notice as exerting a bearish influence abroad. Word that wet weather was tending to delay domestic winter wheat harvest operations southwest and was doing more harm than good acted meanwhile as somewhat of an offset.

Nearly entire absence of speculative demand however left the Chicago wheat market most of the day devoid of energy for rallies. Today's low prices nevertheless did not establish a new all time bottom for wheat. December contracts having sold down to 44⅞ cents a bushel last October with cash wheat down to 45 cents in August. In September 1852 cash wheat sold at 44 cents and in May 1852 it was as low as 28 cents the latter figures being the minimum in Chicago records covering a period of 90 years.

Corn and oats sympathized with wheat price downturns. Provisions were bearishly affected by the action of cereals despite firmness of hog values.

Oakland Booster Club To Hang Old Man Depression

Parade and Entertainment Planned by Organization for Thursday Night; Bands To Lead Marchers; Business Concerns Enter Floats for Event

The Hanging of Old Man Depression will be a feature of the entertainment to be staged by the Oakland Heights Booster club Thursday night.

A parade and program will also celebrate the George Washington bicentennial. Plans for the celebration are in charge of a committee of which W. M. Willis is chairman.

Merchants and business men of that section of the city, together with various wholesale concerns, are arranging floats and other parade features. Music for the evening will be furnished by the Odd Fellows and Eagles bands and Eagles drum corps.

Rainbow veterans, National guardsmen, Disabled War Veterans, American Legion members and school children also will have representation in the parade which will move promptly at 7:30 p. m. Children of the Oakland Heights school are requested to report to Chairman Willis at 7 p. m. Following the parade an entertainment will be given.

The parade will form in two divisions, the first on Davids street and the second on Fairground avenue. The line of march is north on Fairground avenue to Fenwick street, east on Fenwick street to Davids street and south on Davids street, [illegible] by the United Brethren church to Woodrow avenue. The entertainment program will include the Hanging of Old Man Depression, [illegible] talk by [illegible] and music by the Eagles band.

Water Report Filed

The average degree of hardness of the city water from May 25 to June 12 was given as 114 in a report submitted to city council by City Chemist Floyd Prowne last night. The water was the softest on May 25 when the degree of hardness was 109 and was the hardest on June 12 when the report showed 122 degrees of hardness. This was the only day, according to the report, when the degree of hardness exceeded the 120 degrees fixed by the ordinance with the water company.

The report of Mayor W. C. Phillips for the month of May submitted to council last night showed $4.50 collected for building permits during the month, $71 in license and [illegible] in registrations.

JOHN ESSEX DIES AT INDIANAPOLIS

Former Marion Man Claimed Suddenly; Funeral Wednesday.

John Essex, 62, native of Marion, died suddenly yesterday afternoon at his home in Indianapolis following a heart attack.

Word of his death was received here by his sister, Mrs. E. McLain of Park street. Mr. Essex was born in Marion in 1870 and when a young man went to Indianapolis. For many years he was yard master in the Big Four yards in that city.

Besides his sister he leaves four daughters, a son and three brothers, George Essex of Akron, Fred Essex of Galion and Charles Essex of Indianapolis. His wife died 14 years ago.

The funeral will be conducted Wednesday afternoon at Springfield. Mr. Essex was a member of Masonic bodies.

DOCTOR'S CONDITION SAID TO BE BETTER

A report from the City hospital this morning that Dr. James W. McMurray seemed to show a slight improvement and that he had rested well last night was confirmed at noon today by his physician. Hospital attaches seemed more hopeful about his condition today than at any time since he was operated on Thursday afternoon for an acute intestinal obstruction. Dr. McMurray's home is at 657 Windsor street.

Keynote Speech Pictures Hoover as Safe Leader in Critical Period

By The Associated Press

CHICAGO, June 14—A portion of the text of Senator L. J. Dickinson's keynote speech before the Republican national convention follows:

Perhaps it was with prophetic vision that the American people elected Herbert Hoover four years ago with the greatest popular and electoral college vote any President ever received. At any rate, he had scarcely taken the oath of his office before economic storm clouds had begun to cast their sinister shadow over the nations of the world.

His first act prevented a financial panic. Invoking the powers of the federal reserve board, he prevented this catastrophe. Thus he cushioned the effects of the debacle in Wall Street which followed the greatest period of stock speculation the world had ever known.

With the knowledge that every major economic convulsion in the past had been attended by strikes, riots, bloodshed and death, President Hoover's next concern was to maintain social order.

Gets Industrial Cooperation

To this end he summoned to the White House industrial leaders of the nation and obtained from them a promise to maintain existing wage scales as long as it was possible to do so.

On the same day leaders of organized labor, sitting around the same conference table, gave their pledge that there would be no industrial wage disturbances.

Had Herbert Hoover accomplished no more in this depression, he would have done more than all the other Presidents had done in the 11 major economic dislocations which have gone before.

But our *President* planned a campaign to deal with the unprecedented situation in which the world found itself in the backwash of the greatest of wars.

With financial panic averted; with industrial peace assured, the *Chief Executive* moved rapidly to mitigate unemployment distress.

However, no action of government or of people could stay the *march* of the insidious enemy within our gates. Unemployment and suffering were inevitable. To relieve this to the *fullest* possible measure, the *President* set up in Washington a national unemployment committee to cooperate with the states both in finding employment and in relieving the needy.

Checks Clamor for Dole

There was a generous response *from every state* and with the cooperation of the people the President was able to resist rising clamors for a *federal dole.*

Contrast this picture of a stable social order, the people united in aid to their less fortunate fellows, with the chaos in many countries abroad. There revolution followed revolution. Government after government fell. Battle and bloodshed became an almost every day occurrence.

This was the *foreign* situation only a year ago. Drastic action was necessary if the international financial structure was to be preserved. Herbert Hoover took that action. He proposed and other powers quickly agreed to a one year's moratorium on reparations and war debts. Germany was saved from financial chaos that would have involved the entire world.

With this catastrophe averted, the President continued to wage battle against depression on a hundred fronts in the United States.

Before congress assembled last December, President Hoover prepared for it the most far-reaching rehabilitation and reconstruction program that has ever been designed by any leader in any country under any circumstance.

Foremost in this plan was the creation of the Reconstruction Finance Corporation with reserves of two and a half billions of dollars to furnish necessary credit otherwise unobtainable.

Assails Democratic Tactics

As Herbert Hoover poured out his tremendous energies and abilities upon the altar of public service and the welfare of all of the people, what of the Democratic opposition?

For two long years they hampered the President at every turn. Through a highly subsidized press bureau, Democratic leaders, Democratic senators and Democratic congressmen sought to dispute his every word; to impugn his every motive; to frustrate his every move. Their orders were to "smear Hoover."

Upon his shoulders the anvil chorus of Democracy placed the responsibility for every ill at home and abroad.

As might have been expected, they overplayed their hand. With the nation threatened by its greatest economic crisis, people demanded that partisan politics be submerged in the general welfare.

Having no program of their own, they naturally and wisely followed the President, who alone had a workable program.

But after they had assisted in partially translating this plan into law, our Democratic friends were no longer able to contain their hopes of victory within the sphere of the good of the nation. On the all essential proposition of balancing the budget, they elected to follow their own course. And with what result?

The Democrats in the house of representatives flouted their own leadership; their tax bill completely rewritten by the revolting *Democratic majority;* their economy measure was torn to shreds.

Democratic sponsors call for undue inflation of the national currency. The safety of the country requires the maintenance of the gold standard. The value of the American dollar must be maintained throughout the world.

Hits "Squandering" Policy

Nor was this moribund issue the sum total of the products of the master-minds of Democracy. They proposed billions in bond issues for unnecessary and unproductive public works, presumably on the theory that when your budget is unbalanced—when your outgo exceeds your income—you can squander yourself into prosperity.

In their efforts thus to debase the dollar by fiat money and other equally unsound financial schemes the Democrats stalked forth with the ghost of 1896.

The farm board has been the butt of *much* criticism, the greater part of which is unjust. We have heard much abuse of the board's operations in stabilization of cotton and wheat by their financing of cooperatives to purchase these commodities, but we have heard very little of the fact that by their entry into the market in February during the crop year of 1930 and again in November of the next crop year, they stammed the panic which had broken in agricultural prices.

The farm board held prices in each of these two crops above world levels to such a degree that the very moderate estimate of the amount realized by the American farmer over and above what they would have realized otherwise is between $1,000,000,000 and $2,000,000,000.

It matters little if the government loses $150,000,000 for the savings it made to homes of farmers throughout this whole land. It was throwing a regiment into the front of the battle to lose, but saved millions.

Billion for Agriculture

Directly and indirectly, the federal government has, during the last three years, poured into the agricultural industry nearly $1,000,000,000. As I said before, grievous as his suffering may be, no farmer can deny the undeviating friendship of the Republican party.

Since the beginning of the economic crisis, the Democratic party has shown an utter lack of cohesion on every important issue, and on none has it been more divided than on the tariff. Its leaders have run the scale from free trade to the highest possible protection.

With falling prices and depreciated currencies overseas, there stands just one bulwark for the salvation of our people. Without the rates of the Hawley-Smoot act of 1930, we would long since have been inundated by a flood of cheaply produced foreign products.

Gentlemen of the opposition cried to high heaven against some of the rates that were being written into that bill. But while they thus wailed, they were not only voluntary, but eager partners in the writing of duties for their local and state industries which in many cases even surpassed what staunch protectionist Republicans believed were necessary.

In the senate alone 1010 votes were cast by Democratic senators either for increases in rates or against decreases in rates. And the Democrats furnished the margin of votes that were necessary for final enactment of the measure!

Even more recently—in congressional consideration of the budget balancing tax bill—we have had further illustrations of the avidity with which the Democrats pursue high tariff rates. They generously supported duties on copper, coal, oil and lumber. And all this after two years of the most bitter and venomous denunciation of the Hawley-Smoot act!

Today partisanship is sublimated before patriotism.

And yet to my mind there is no greater patriotism than the employment of every effort toward the restoration of normal conditions. And there can be no more dependable means to this end than the reelection of Herbert Hoover as President of the United States.

ALASKAN GETS HOT

Other delegates to the Republican national convention at Chicago were loud in their praise of the cool lake breezes, but not Edward A. Rasmussen, national committeeman from Alaska. He wanted an electric fan as soon as he arrived.

CORNERS CHANGED BY RELIEF WORKERS

Hill Street Improved by City Service Department.

The work of cutting back the northwest and southwest corners of South Main and Hill streets was started by the city service department yesterday.

Relief labor is doing the work under the direction of City Engineer Tom Cathers and the service director. The radius will be increased to about 20 feet.

Plans are also being made to make a similar change in Hill street at Prospect. Relief laborers working for grocery orders have been put to work straightening the curb on Kensington Place.

WISE IS FINED $100 ON DRIVING CHARGE

Merle Wise of North Main street, arrested May 17 on a charge of driving an automobile while intoxicated, was fined $100 and costs and his right to drive an automobile suspended for six months by Municipal Judge W. R. Martin yesterday afternoon.

Wise pleaded not guilty following his arrest and has been at liberty under bond. The case was continued six times.

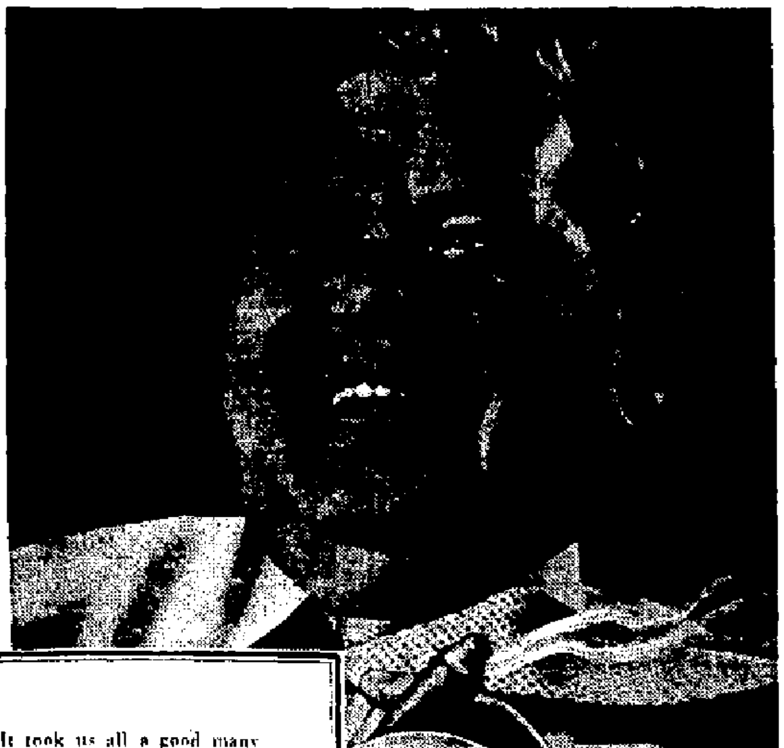
Father's Day
Sunday, June 19



DEAR OLD DAD! It took us all a good many years to realize that Dad was a bit more than the signature to a check. But now we know. We know that while he makes a game fight for it up there in the front line of his job, his heart is back home with his family. Yes, He loves us. He makes unsung sacrifices for us. He thinks nothing's too good for us. That's why we set aside this day for him.

JUNE NINETEENTH—FATHER'S DAY—Greet dear old Dad with some expression of your gratitude, and deep affection. The local stores are showing a splendid array of gifts.

Watch the advertisements every day this week in The Marion Star for suggestions to aid your choice of gifts that will most appeal to the particular taste of YOUR DAD.

Dad will appreciate fishing tackle, a new tie, smoking supplies or some accessory for the old bus.

How One Man Lost 42 Pounds

Gentlemen: I weighed 267 lbs. in May, 1931. I weigh 245 lbs. now (Jan. 1932). I plan to lose one lb. each week and I do so. My hope is to reach a pound 200 to 210 with no physical injury. I weighed 225 when 21 years of age. I am now 40 years old. I feel better since I take Kruschen Salts. I recommend Kruschen Salts. I have used 4 bottles. William P. Towers, Utica, N. Y. January 25, 1932.

To lose fat SAFELY and quickly take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast. To hasten results go light on fatty meats, potatoes, cream and pastries.

For your health's sake ask for and get Kruschen—the cost for a bottle that lasts 4 weeks is but a trifle at any drugstore in the world and if after the first bottle you are not joyfully satisfied with results money back. Hanney & Cooper and all good druggists will be glad to supply you.—Adv.

WAITING FOR G. O. P. CONVENTION TICKETS

Scenes reminiscent of prize fight night at the Chicago Stadium were enacted as delegates lined up for tickets and badges which would admit them to the floor of the Republican national convention. Long lines awaited their turn at the window.

BY ARTHUR BRISBANE

FOR THE Republican convention telegraph companies have provided wires and operators enough to transmit 300,000 words an hour. They will be needed for Americans like many words. A few would suffice for the actual news, enough to tell that President Hoover has been renominated, that another man has or has not been chosen to take Vice President Curtis' place and that the Republicans have adopted a prohibition plank to please the wets as much as possible and offend the drys as little as possible.

THE NEW German government will tell assembled nations at Lausanne that Germany can and will no longer pay for losing the war.

After that the French and Italians and the British probably will announce that they will not pay us. Paris announces that the French and English prime ministers have an understanding that includes an understanding about the debts.

This country has already reduced ten billions of debts to five billions and five billions more or less will not make or break the United States. The attitude of our foreign friends which the United States should remember in future wars is about this:

A man borrows from his friend and later says "I regret to tell you that I expected to pay that debt of honor by beating another man and taking the money from him. I have beaten him and taken a good deal from him, but I can't get any more, so you don't get paid."

We shall not get our money, but we get a lesson that ought to be useful. The next time Europe comes begging, borrowing and robbing it will find Uncle Sam with his fingers tightly crossed.

MARTIN DEPUTY alias Marshall Depew, arrested as the leader of a gang that kidnaped a woman in Kansas City, tells detectives "Boys, you're only wasting time. I did it. I'm going to get the noose. And I'm not afraid."

Missouri, in which the kidnaping was done, seeks to discourage that crime by punishing it with death. Capital punishment is abhorrent, but if the five men that combined to kidnap the Missouri woman and extract $5,000 from here were all strung up at once it might make kidnaping seem less attractive.

THE REPUBLIC of Colombia made up its mind quickly. Ten days ago it established partial prohibition, stopping the sale of liquors between six in the morning and six in the evening on holidays.

The people did not like it and the partial prohibition ceases by presidential decree. We do not decide so rapidly. We wait until prohibition bootlegging has financed an army of crime that will be dangerous and hard to handle. If the end of prohibition cuts off their supplies of money.

Search Warrants

Search warrants issued in job lots merely for purposes of convenience in liquor raids have been a point of acute irritation between the public and enforcement officials. It is a highly important decision that the Ohio supreme court reaches that only judges of regularly established courts and magistrates are authorized to issue warrants and they cannot be issued legally for other than specific purposes. It has been the practice to procure them from municipal court clerks, the form in which they were drawn made them less legal instruments than ordinary police equipment.

The court rules that they must name the building to be searched, the person in charge of the building and the evidence which is the excuse for the search. Recodification of the state criminal laws in 1929 specifically placed authority for issuing warrants in the proper hands but three years have been required to uncover the fact. In the wake of neglect and misunderstanding are dozens of violations of property rights.

The assumption is that the judiciary, being under oath to protect the power whose provisions it administers, will be less likely to permit transgressions on these rights than has been done previously by misuse of search warrants. There is little question but that an excess of zeal has prompted police to assume rights never designated to them either in spirit or in fact. Enforcement of prohibition has not been aided by the error. Literally a man's house is his castle, protected by a moat of legal provisions over which there is but one drawbridge—the search warrant. It should only be used by the state after the most thoughtful exhaustive consideration.

Ohio has not exercised proper care. The search warrant as a legal instrument has been put to uses for which it never was intended. Forbiddance of those improper uses by a high authority has been due this long time.

Ten Farmers—Ten Years.

Americans learn to feel sorry for farmers along with sums and grammar. The struggle on the land is a firmly established part of the national credo. It moved congress under the Hoover administration to appropriate half a billion dollars in an attempt to do something about it. It has served as an admirable stalking horse for generations of politicians. If the nation were to awake one morning and know that all was well on the farms and with farmers it probably would be lonesome without a pampered sorrow of long standing. The census bureau's dry story in figures has a special attraction therefore.

Assume that 100 representative farms managed by 100 average farmers had been selected 10 years ago. What changes did they undergo during the decade that ended with the taking of the latest census?

Four farmers gave up or were forced out of the struggle. Their farms were taken over by the remaining 96 making the average size of their farms 157 acres. However the value of their property fell during the period from $1 00 000 to about $87 000. They owned more land but it was worth 25 per cent less.

This took place despite the fact that improvements in the buildings to the extent of almost $100 in each case was made. If the farmer was lucky enough to have property in New England the middle Atlantic states or Florida however he was classed as an exception. While his farm's value was increasing the value of farms in other sections was falling far enough to drag down the average [illegible] decrease to 25 per cent.

In 1920 36 of the 100 average farmers were in debt $3,335 apiece for mortgages. Ten years later 40 of them were paying interests on mortgages of $3,560. Nowhere in America does the grim business of paying off the mortgage strike home with more heartaches than on the farms but even so the menace of astute money lenders wasn't great enough to prevent 681,000 persons from moving to farms from cities while only 3[illegible]000 were going to cities from farms—and all in the short space of one year from 1929 to 1930. Forty-four per cent of all the people in the United States were on farms at the time of the recent census enumeration, only four per cent less than were there 10 years before when a farmer could sell a few bushels of wheat for enough money to buy groceries for a week.

Living was better in 1930 on thousands of farms. The electric light companies had bright young men soliciting customers for power lines. Plumbing had transformed many a rambling farmhouse into a castle with hot and cold water ready to [illegible] service at the turn of a faucet handle. Butter was churned merrily to the sprightly tunes of an orchestra playing in a radio studio a thousand miles away. Daily newspapers informed old dirt farmers that Henry Ford and other men who liked to talk about such things believed that part of the solution of unemployment would consist in getting people closer to the soil. Making a go of farming was no joke, farmers admitted to themselves but from what the papers said making a go of living in the city wasn't what it used to be, either.

BE READY WITH YOUR PLEDGE.

Marion's Community fund campaign is under way and those in charge hope to see the goal reached by noon Friday.

Whether this is accomplished depends of course upon the response of citizens. To make the campaign a success within the time set there must be no delay in signing the pledge cards presented by the corps of workers making a systematic canvass of the city. There is no reason for anyone holding off. Every resident of Marion knows the purpose of this campaign and understands its importance. With this clear in every mind there is but one thing to do: sign the pledge card for the most generous contribution possible.

The campaign workers making this canvass are giving both time and money in behalf of the cause. They are doing this because of their enthusiasm for Marion and their interest in the welfare of all its citizens. All are busy men taking time from their personal duties to help provide the community with funds required to finance its essential welfare activities. That should be borne in mind by all upon whom they call and their reception should be accordingly respectful and considerate.

Help them on their way by giving them your pledge promptly and make it commensurate with your means.

Our Convention Guests

Marion has had the pleasure and privilege of receiving visitors to several state and district conventions this year and is again honored this week with another important assembly. The guests on this occasion are members of the state organizations of the Improved Order of Red Men and its woman's auxiliary, the Degree of Pocahontas.

These two groups are among the leading fraternal organizations in Ohio and other states of the Union and as a consequence their selection of Marion as a meeting place this year is a mark of distinction for the community.

Local civic organizations have put forth every possible effort to arrange for the comfort and entertainment of these visitors during their stay here and if anything should occur to mar the plans even in the slightest detail our guests can take for granted that it is unintentional and unavoidable.

Marion people realize that in opening the doors of their community to groups of convention visitors they assume an obligation of hospitality that must be fulfilled in every respect. They strive to meet this obligation in full knowing that it is essential that every guest leave with a kindly feeling for the city and its residents.

Like other fraternal organizations the Red Men and the Degree of Pocahontas are engaged in activities that are helpful not solely to the members. The beneficial influence of bands of men and women united to teach and exemplify the principles of brotherhood and mutual aid invariably extends beyond their own circles and is a valuable contribution to public welfare.

In times of emergency and stress these fraternities are always found ready to answer the call to service. Much of this country's progress has been linked with the service and support coming from such organizations.

The fact that the Improved Order of Red Men and its allied group rank with this class of typically American organizations adds to Marion's pleasure in having their representatives as its guests.

A Tip on Procedure

The importance of a newspaper story can't always be judged by the amount of space it is given. Don't overlook the little ones.

For instance the latest development in the Lindbergh case, a possible revolt over President Hoover's policy on prohibition, the bonus marchers and developments in Chile and Germany took space and prestige away from an important story out of Chicago last Saturday.

A woman had obtained a divorce because her husband was cruel in trying to cure her of backseat driving. Testimony: "When I made a few little suggestions he would drive 75 miles an hour through the streets, then turn around and laugh loudly and horribly."

Obviously if judges are going to grant divorces because the driver tries to hold the upper hand at the wheel of the family car things are in a pretty bad state. However there probably is more than that to be considered. [illegible] he would drive 75 miles an hour [illegible] then turn around and laugh horribly.

That isn't the correct way to handle the situation. A better way is to stop the car, smile and [illegible] once in an even tone: "Now calm yourself. Tell me when you feel strong enough to go on. Or would you like to [illegible] at the wheel [illegible] for a while? [illegible] It's just a tip [illegible] And all back seat drivers [illegible] help yourselves, ladies.

Daily Guide to Health

BY DR ROYAL S COPELAND

Look Out for Sunburn

Sunbaths have been popular within the last few years and this is one fad that is approved and recommended by the medical profession. For sunlight aids in promoting health, happiness and strength.

Sunbaths have greatly aided in lowering the number of victims of certain diseases of childhood. In treatment of rickets the value of sunlight cannot be overestimated. Rickets at one time was known as the disease of tenement children who suffered from it because they did not have sufficient sun, air or nourishment. It is known that even though the diet may be lacking in Vitamin D, rickets can be prevented if the child receives plenty of sunshine.

For many years tuberculous children in Switzerland have benefited by the action of the sun. Unhampered by clothes they play about in the sunlight in Winter as well as in Summer. In these days all institutions caring for tubercular children and adults take advantage of the benefits of sunlight.

Not only for the diseased but for the healthy individual the therapeutic value of the sun is now recognized. Many of my readers will recall a time when the direct rays of the sun were believed to be harmful to children. Due to such unfounded notions as heating the blood and heat stroke the child was kept in the shade and away from the beneficial days of the sun.

Today I am glad to say all authorities agree that infants should be reasonably exposed to the sun's beneficial action and mothers are taught that sunlight is necessary for the proper growth of babies. It stimulates the growth of a child's bones and prevents infections and constitutional diseases.

The sunbath may be given to the baby when it is but three or four weeks old. In Summer the sunbaths should be given outdoors and the exposures to the sun gradually increased until the baby has a proper coat of tan.

Care must always be taken however against too much sunlight. When quickly exposed to the sun the skin receives a burn that is similar to a burn from fire or scalding liquids which is dangerous and may produce serious complications. This is rarely seen in children but is too frequently encountered in the enthusiastic adult vacationist who wishes to obtain a coat of tan.

Tanning the skin is a protection against the harmful action of sunburn but it can be accomplished safely only by gradual exposure to the sun. Once you have a good coat of tan you need not be concerned about how long you stay in the sun but until then be careful. Many vacations have been ruined by neglect of this rule.

The sun was worshipped by the ancient Egyptians and Greeks as a god who gave them health. They paid homage to the sun but they knew it could be harmful as well as beneficial. It would be a good plan for vacationists to remember the sun wisdom of the ancients.

The D A R observed flag day with a program and guest day party at the S K Gorham home on Delaware avenue.

Miss Esther Guthery daughter of Mr and Mrs John H Guthery was united in marriage to Louis Edwin Smart of Columbus in a ceremony at the home of the bride on [illegible] street. The officiating minister was Dr J T Streck pastor of the First Presbyterian church.

TWENTY YEARS AGO

It was Friday June 14 1912

It was announced at Chicago where the Republican national convention was in progress that the platform would be progressive regardless of who should be nominated, both the Taft and Roosevelt forces having agreed on that point.

A fist fight came as a climax to bitter feeling developing between the factions at the Chicago convention, the encounter following a decision of the national committee seating the Taft delegates from the Third Oklahoma district.

The [illegible] Finland sailed for Stockholm with members of the American Olympics team aboard.

Sale of the Starner-Copeland shoe factory building on Park Boulevard to the C & L Shoe company of Columbus was announced. The deal was expected to give added impetus to industry in Marion. The plan of the new company being to [illegible] about 200 workmen in the force.

The Spanish War Veterans made arrangements for their annual picnic and outing [illegible] Fred M[illegible] and F R Rund[illegible] as the committee in charge.

Members of the R O F club entertained their young men friends at a party at the home of Miss Frances Frye on East Church street.

Misses Gladys and Augusta Bauer were hostesses to a company of 50 young people at their home on West Columbia street.

A state inspector condemned part of the fairgrounds' grand stand and informed Agricultural society officers that the section could not be used for the next fair. As the [illegible] asked funds for building a new stand it was decided to sell the condemned half and erect bleacher seats for temporary use.

A BANK BONUS LAW IN OHIO

Ohio once had a [illegible] law for the taxation of banks. After attempting to [illegible] taxes levied on dividends [illegible] Governor W[illegible] [illegible] that as the [illegible] stock [illegible] it might be well [illegible] to become owners [illegible] shares of the bank [illegible] an inside view of [illegible].

The law was passed [illegible].

This was to take the place of all other requirements of the state on banks as [illegible] to the general revenue [illegible] was to be in lieu of all [illegible] taxation. It is doubtful if the state ever realized much from the bonus law. The legislative records contain many clues to difficulty in collecting the state's claim under the bonus provisions. Many of the banks accepting the provisions failed and the state was [illegible] the position of [illegible] stockholder.

TAX LAW CHEERS STEEL INDUSTRY

By International News Service

YOUNGSTOWN O June 13—Leading steel makers here feel that passage of the national tax law and the balancing of the budget will do much to stimulate new business for the steel trade and pave the way for revival of business generally.

It is expected that steel scrap prices which receded recently will respond to improved conditions very quickly. Price declines of 25 to 50 cents per ton has been registered though sales are confined to small lots as a rule.

Sales executives feel that the industry made considerable progress in the last two months in its effort to stabilize price conditions and eliminate drastic concessions. This stabilization it is felt paves the way for a much better price structure later in the year.

According to a theory of two English scientists magnetic storms that interfere with telegraph and cable service are due to a ring of electric current that surrounds the earth like Saturn's rings.

Sophomore Class Planned at Edison Junior High

Second Year Subjects To Be Taught at New School To Prevent Overcrowding at Harding; Enrollment To Be Higher.

Tenth grade subjects will be taught in the new Thomas A Edison Junior High school in Oakland Heights next year for between 100 and 120 pupils to avoid an overcrowded condition in Harding High school.

The city school board last night authorized Supt George A Bowman to arrange tenth grade classes in the Edison building for pupils who were in the ninth grade in that building last year and possibly a few other tenth grade students in the southwestern section of the city.

Classes Larger

With the largest senior and junior classes in the history of the school in prospect for next year Harding High school with a normal capacity of 780 would have been swamped with more than 1 000 students next year if arrangements had not been made to handle a group of senior high school students elsewhere, Superintendent Bowman said.

Harding High school for the last several years has been accommodating more than its normal capacity, last year having more than 900 enrolled, the superintendent said.

Superintendent Bowman's nomination of J Marvin Sipe of Union City O for commercial teacher for next term was confirmed. Mr Sipe who will succeed Miss Verna Arth resigned is a graduate of Ball State teachers college at Muncie Ind and holds a master's degree from the University of Indiana.

Nominations of Miss Ruby Kraner to teach related English and J H Smith to teach physics in conjunction with the continuation of the vocational courses through an eight week period of the summer vacation were confirmed. Both are regular staff teachers in Harding High school.

Coal Bids Confirmed

EVANGELIST POINTS OUT PRESENT NEEDS

Consideration of Sins Seen as Necessity by Leader of Tent Services

The prime need of the present hour is not the return of previous extravagance, gambling and its attendant [illegible] but is a consideration of our sins against both God and man, Dwight H Ferguson [illegible] evangelist declared in his sermon last night at the tent services in the rear of 287 West Center street.

He spoke on the topic "Life in a Look" and chose as his text John 3 14 "And as Moses lifted up the serpent in the wilderness even so must the Son of Man be lifted up."

The greater percentage of our present suffering has been caused by the absence of conservative precaution. Peculiar as it may seem the wheels of depression are bringing about a process of elimination. The vice hole created by easy money which was rapidly on the increase is suffering a reverse and mushroom types of business often creating worthless, needless and [illegible] attractive articles are automatically becoming fewer, he said.

Mr Ferguson is holding daily meetings at the county jail from 12 noon to 1 p m. Services at the tent each day are prayer hour at 10 a m, Bible exposition at 2 30 p m, children's services at 4 p m, gospel team street meeting services 6 45 to 7 15 p m and evangelistic services at 7 30 p m. Tonight Mr Ferguson will preach on "The Devil."

SUBSTITUTE RELIEF MEASURE APPROVED

Senate Offers New Plan in Place of Garner Public Works Proposal.

By the Associated Press

WASHINGTON June 14. The $2 000 000 000 relief program offered by senate Democrats was substituted today for the Garner $2 300 000 000 plan by the senate banking committee.

The committee agreed to report the Garner bill with the provision of the senate bill substituted so that both measures can go to conference.

The action was the first step toward breaking the deadlock between house and senate on relief legislation.

The Garner bill carries $1 200 000 000 for public construction, authorizes the Reconstruction Corporation to increase its capitalization by $1 000 000 000 for reconstruction loans and creates an emergency fund of $100 000 000 to be administered by the President.

The Wagner bill which was substituted provides for a $500 000 000 public works bond issue to which President Hoover is opposed and authorizes an increase of $1 500 000 000 in the borrowing power of the Reconstruction corporation for loans for self liquidating construction of a public [illegible]

Delegates Hear Increased Rumblings Against Curtis at Chicago

Sen Curtis Fight

[illegible] and [illegible] itself with formality. It was [illegible] ally [illegible] by the temporary chairman and keynoter Senator Dickinson [illegible] [illegible] question [illegible] which [illegible] [illegible] divided.

The platform [illegible] thrills [illegible] but [illegible] the delegates [illegible] Nobody did.

Nicholas Murray Butler [illegible] chatted on the [illegible] stand with Fess and the others. Secretary Hurley of the war department [illegible] from Washington with Mrs Hurley was questioned about the prohibition plank but [illegible] smiling. Smith [illegible] Senator Bingham of Connecticut bent his more than six feet of height [illegible] under the tunnel [illegible] floor to platform. He was very busy coming and going.

A [illegible] Republican glee club seizing a moment when both band and pipe organ were silent sang familiar melodies in a high box behind the speaker's stand.

Fess Calls for Order

The galleries were filling but not very rapidly. It looked certain there would be many vacant seats throughout the session.

Senator Fess made his first try for order at 11 [illegible] pounding down the gavel with a big whack.

He got comparative quiet at 11 30. He sprang a surprise on the convention at once, a tableau in honor of Flag day unlisted on the official program.

In words of patriotic appeal the senator glorified the stars and stripes. As he concluded a legion color guard in white helmets, blue coats and white trousers marched through the aisle to front and center facing the chairman at [illegible] arms as the band played "The Star Spangled Banner." A great American flag was unfurled and [illegible] to hang directly above the center of the arena. The glee club took up the words of the national anthem as the band muted its tones and the color guard marched out. Delegates and spectators rose and cheered.

Dickinson Begins Speech

Fess then presented Senator Dickinson as temporary chairman and amid a [illegible] handclapping the senator was escorted to the chair by [illegible] James Rolph Jr of California, Governor Dan Turner of Iowa and General Edward Martin of Pennsylvania.

In dark blue with the [illegible] lights picking out the white of his [illegible] of curly hair, Senator Dickinson plunged into the reading of his speech with [illegible]. He got the first [illegible] cheering almost at once by a tribute to Herbert Hoover [illegible] delegates from the President's home state waved the California flag high above their delegation. The band played a few bars of "America" but it was all over in less than a minute and Dickinson went ahead.

He was working hard at the speech and his collar began to wilt before he got far. After days of pleasant weather the sun was beating down mercilessly on the stadium and some spectators [illegible] seated in the galleries [illegible]

Floor Fight Threatened

[illegible] than a [illegible] prospect [illegible] that it would be [illegible] by many of the waiting wets and drys although a later floor fight still was threatened by those who want the party to go all the way over to repeal.

The platform committee [illegible] late today under the chairmanship of James P Garfield of Ohio still must wrestle with the problem before it comes to the convention at all.

One point sure to stir committee debate is the problem of the [illegible]. The compromise conference tried to find a way to propose a legal barrier to it but failed.

The prohibition dispute so far overshadowed the convention picture that every other phase of the big quadrennial event was all but forgotten as the delegates came together today.

The sudden rise of anti prohibition sentiment here had been one of the dramatic episodes of political history.

Second place in the speculation and concern of leaders and delegates was held by the question of the vice presidency. Not only does a murmur of opposition to the renomination of Mr Curtis run through many delegations but Charles G Dawes' statement of renunciation in Washington yesterday did not stop efforts by his admirers. Iowa went so far as to endorse him by resolution. Texas indicated it might be for him and Illinois debated whether it should not press its campaign in his behalf.

The prospects continued to point toward a Curtis renomination when nominations are reached on Thursday.

Though [illegible] nothing is not entirely lively for administration dealing [illegible] this convention was amply [illegible] [illegible] by the delegation from Massachusetts. William M Butler of that state has been [illegible] serious discussion here [illegible] chairman. But his own delegation refused on its initial [illegible] to give him even a member[ship] on the national committee.

There was no outward sign of these internal wars beneath the surface of today's gathering in the mammoth stadium [illegible] auditorium in which the [illegible] are to meet [illegible] here.

how [illegible] the vote must stand is 226 votes are short of the two thirds required to override a veto.

Just before the house met Representative Rainey, the Democratic leader, told newspapermen the bonus [illegible] licked.

"It will pass the house but there are not enough votes for the necessary two thirds to pass it over a presidential veto," Rainey said. "The vote against it yesterday was larger than I expected."

Advocated by Vinson

Representative Vinson, Democrat of Kentucky, the first speaker for the bill, filed the minority report appealing it from the ways and means committee which rejected the full payment plan 14 to 11.

"Opponents of this measure," Vinson said, "say it will bring us to the brink of havoc and chaos. We deny that. We say that throughout this congress the legislation enacted has been a superficial treatment of the disease.

"It is the solemn and sincere hope of its sponsors that this bill goes to the roots of the disease. We believe it is the only measure brought upon the floor that meets the fundamental basis of our trouble today."

The raiders said they understood the campaign was part of the extended local drive to dry up the city for the Republican and Democratic national conventions. Four speakeasies were also raided on the north side and a number of arrests made.

Captain Tells of Flier's Rescue in Semi-Darkness

This story of the rescue of Stanislaus Felix Hausner, New York-to-Warsaw flier, was radioed to The Associated Press by Captain James William Wilson, master of the steamship Circle Shell which picked him up in the Atlantic eight days after he had started his flight and when hope that he was alive virtually had been abandoned.

Master of the S S Circe Shell

By The Associated Press

S S CIRCE SHELL June 14. "I'm Stanley Hausner," said he on my ship.

With these words the Polish flier who had drifted eight days across the Atlantic on his wrecked airplane greeted us when we found him.

He literally fell into the lifeboat which we had lowered to fetch him and he was helped aboard my ship in almost complete darkness.

"Thanks very much captain. I've been waiting for you eight days," Hausner said.

Then he collapsed.

He almost missed being rescued for the darkness was falling rapidly.

Sights Tail of Plane

It was very difficult to see but the lookout on the Circe Shell sighted something ahead. It looked like a drifting buoy but he could make out some peculiar markings on top.

He picked up his long glass and trained it on the object. He saw what he had thought was a buoy was really an airplane with its tail sticking up in the air.

Right away when he had told me what he saw I stepped to the engine room telegraph and signaled my engineer to cut the speed.

We slowed down and moved closer. We got within one mile of the derelict and then I stopped the ship. We drifted and slowly closed in.

My men watching from the rail were amazed to see the figure of a man [illegible] to be [illegible]

THE GANG ISN'T TAKING ANY CANDY FROM THIS BABY!

Copr 1932 by Shell [illegible]

LOOK around the corner! Old Lady Engine Waste and her greedy gang are out after your gasoline dollars. Thanks to Shell these thieves are pretty much disappointed right now.

Knocks, slow pick-up, dilution of oil, slow starting, gummy valves make up the costly Engine Waste gang. They pounce upon and gobble up your dollars every time that your gasoline does not perform satisfactorily in your motor.

Every one of them causes wasted gasoline—Engine-Waste. Cutting down your mileage per gallon, hindering motor performance, they all run up your driving costs.

Don't tolerate the thieves of Engine Waste any longer. You don't have to. A remarkable process plus many years of continuous improvement in refining and blending has made possible a fuel capable of reducing Engine Waste to a very minimum in your car.

This perfectly balanced fuel is Shell Gasoline. Every lot of it is tested by running in an actual engine. Every gallon, wherever you buy it, is proven to cut down Engine Waste.

Whatever make, whatever model car you drive, it will pay you to make a test of Shell Gasoline. Fill your tank with Shell today. Test it for maximum engine performance, for mileage per-gallon. You'll find it will save you money.

Perfect Refrigeration Even at High Noon in the Tropics

Majestic has invested eight-and-a-half million dollars in a brand-new plant equipped with the latest automatic machinery, and had declared its purpose to make quality refrigerators at a price within the reach of every family . . .

Behold, now, in this new thrift-model Majestic, is your judgment vindicated!

For here is a refrigerator that fits any kitchen comfortably. Scientifically shelved, to permit full use of every cubic inch of space. Multi-powered, to assure complete refrigeration even at high noon in the tropics. Actuated by a silent compressor—with only three moving parts! Equipped with a factory-sealed unit that can be pulled out and replaced in fifteen minutes. Finished inside in stainless china-white porcelain—every corner rounded. Finished outside in everlasting satin-like Elasto. A refrigerator built to give you a lifetime of service at the lowest cost, and to pay for itself in less than two years' time!

You are cordially invited to inspect this latest Majestic marvel. See it, by all means, before you buy. Then match it, point by point and dollar for dollar—if you can!
